

BALANCE OF PAYMENTS¹
of the Republic of Azerbaijan for January – March, 2018

Total surplus of the balance of payments (BoP) in January – September 2018 stemmed from both 42% rise in oil prices and positive trends in current accounts balance (CAB). \$5.1 B worth of surplus in the CAB contributed to \$3.7 B worth of increase in reserve assets.

Key indicators of the balance of payments for January – September 2018

Mln. \$

Current operations	5 088.1
Foreign trade balance	7 335.1
Services balance	- 1 309.1
Primary income balance	- 1 488.5
-Investment income repatriation	- 1 191.3
Secondary income balance	550.6
Capital account	1.5
Financial account	- 2 463.6
Net financial assets	3 344.8
including:	
- direct investments abroad	1 562.1
- portfolio investments	622.7
- derivatives	- 3.2
- other investments	1 163.2
Net financial liabilities	881.2
including:	
- direct investments attracted to Azerbaijan	2 934.0
- attracted investment repatriation	- 2 400.4
- oil bonus	450.1
- portfolio investments	- 348.8
- derivatives	- 4.3
- other investments	250.6
Net errors and omissions	1 038.6
Total surplus of the BOP (change in reserve assets of the country; '+' increase, '-' decrease)	3 664.6

Note: The BOP was calculated at the 70.6\$ (y/y 49.8\$) average actual oil price.

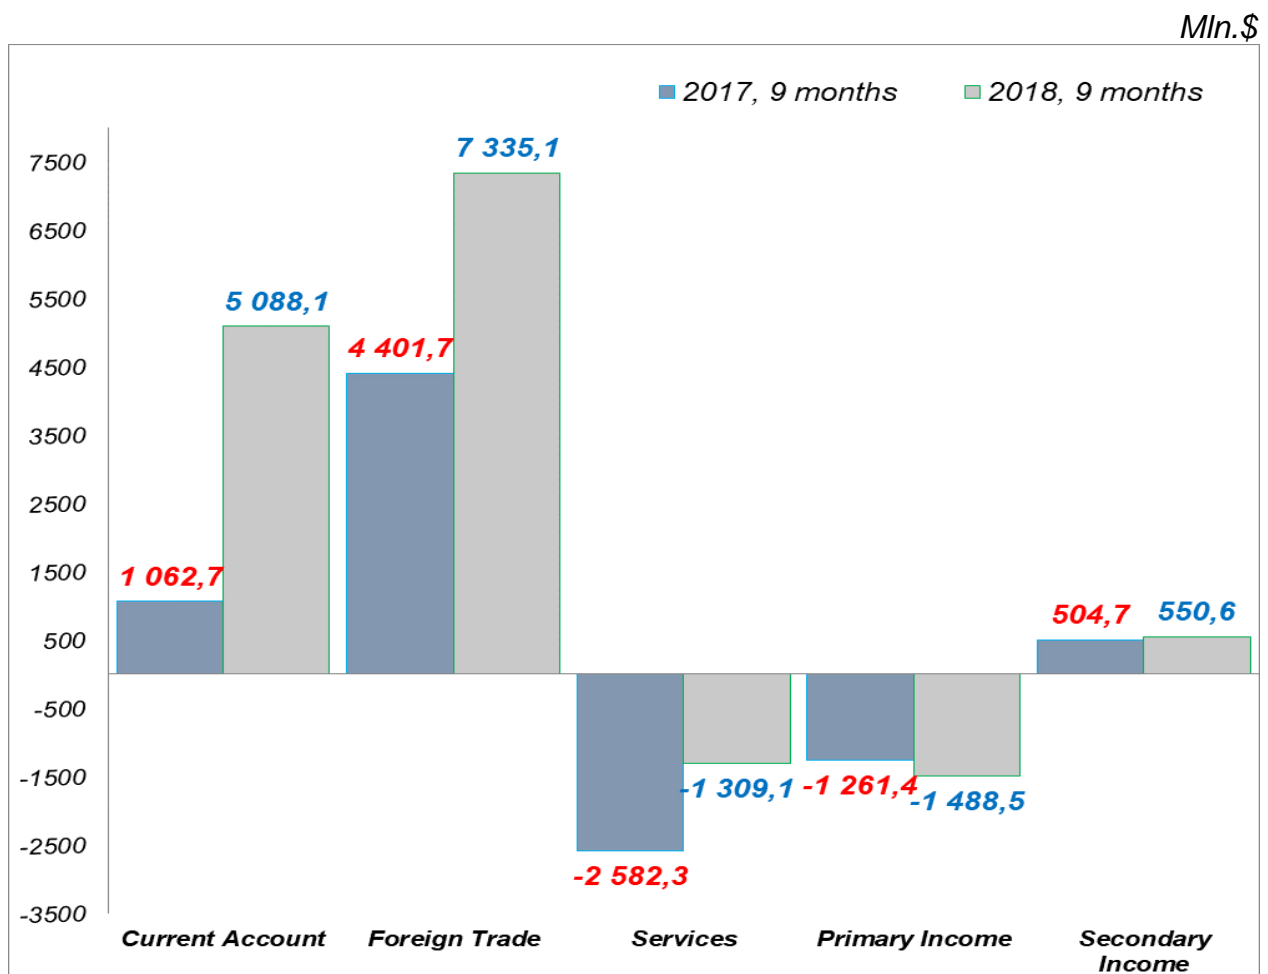

Current account

Current account surplus amounted to \$5.1 B (y/y up by 4.8 times), surplus on the non-oil sector increased by 2 times (\$4.9 B) to \$9.9 B, while non-oil current account deficit y/y

¹ Go to http://cbar.az/assets/1186/final_metod.pdf for Methodological Guidelines on Compiling the Balance of Payments.

increased by 21% (\$831 M) to \$4.8 B. Oil-and-gas current account surplus fully covered non-oil deficit. Current account surplus is driven by:

- 1.7 times jump in foreign trade balance;
- 1.4 times rise in oil-gas export and 11.8% rise in non-oil export;
- 2 times drop in deficit of services balance, including 1.9 times (\$944 M) decrease in construction services and \$370 M (up by 11.8%) worth of positive balance in tourism;
- 9% rise in surplus in secondary income balance (\$46 M).

External trade balance

External trade balance made up \$23.1 B. \$12.9 B worth of oil-gas surplus covered \$5.6 B non-oil deficit, resulting in \$7.3 B worth of positive external trade balance (up by 1.7 times).

Azerbaijan traded up to 176 countries – CIS countries account for 12%, while other countries 88% of foreign trade.

Commodity export amounted to \$15.2 B (up by 1.4 times).

\$12.7 B worth of oil products were exported to foreign countries: \$494.4 M oil processing products, and \$12.2 B crude oil.

Non-oil export, posting growth, y/y increased by 11.8% to \$1.1 B.

Commodity import constituted \$7.9 B, total value of imported consumer goods amounted to \$3.6 B (including \$1.1 B worth of food products). Non-oil import y/y increased by 24.3% to \$6.7 B; import of automobiles (2.1 times), chemicals (1.5 times), ferrous metals and products (1.4 times), furniture (23.3%), paper products (18.3%), stone and glass ware (23%), alcoholic and non-alcoholic beverages (29.2%) increased, while import of sugar (1.7 times), tobacco and products (10.3%), vegetables (13.2%) decreased.

The share of vehicles, equipment and goods imported via foreign investments was 9.8% (\$777.1 M).

Services balance

One of the major items in economic relations of Azerbaijan with other countries was mutually provided services (\$9.3 B). Out of which \$5.3 B was rendered by non-residents for Azerbaijani residents, and \$4 B – by Azerbaijani residents for foreign residents, resulting in \$1.3 B worth of deficit in services balance.

\$1.2 B of deficit relates to the oil-gas sector (in particular \$1 B worth of construction services and \$365 M other business services). Non-oil services balance deficit y/y dropped by 2.4 times to \$ 51.1 M.

The share of transportation in total services turnover was 21%. Total size of transportation services made up \$2 B, 45.2% of which relates to the use of transportation systems of Azerbaijan by non-residents. Total value of transportation services provided by Azerbaijani residents to non-residents made up \$888.7 M, while the value of travelling services provided by non-residents to Azerbaijani residents made up \$1.1 B. Non-oil exports of transportation services increased by 1.5 times.

Mutual tourism services y/y increased by 6.4% to \$4.6 B. Surplus on tourism services y/y increased by 11.8% to \$370.3 M (\$331.2 M in 2017) (the number of foreign citizens visiting Azerbaijan increased by 6% in January – September, 2018).

In its turn, the cost of travel provided by foreign countries for Azerbaijani residents was \$1.3 B. 79% of this amount falls to the share of private expenditures of Azerbaijani citizens in foreign countries (funds for shuttle import excluding).

The value of construction services paid to non-residents on the non-oil sector y/y decreased by 1.5 times to \$22.3 M, while the value of other business services paid to non-residents on the non-oil sector decreased by 7% to \$523.8 M.

Primary income balance

Oil-gas deficit made up \$1.8 B, while non-oil surplus amounted to \$307.2 M, resulting in y/y increase in primary income balance deficit by 18% to \$1.5 B. Total turnover of income receipts and payments was \$4 B, 68.5% (\$2.7 B) of which were payments from Azerbaijan to non-residents: income repatriation (\$1.8 B) of foreign investors in oil-gas consortiums (mainly in terms of crude oil), interest payments to non-residents on the securities portfolio (\$358 M) and interest payments on foreign loans (\$289.7 M).

Secondary income balance

Total value of secondary income operations with foreign countries is estimated to equal \$1190.8 M – receipts \$870.7 M, and payments \$320.1 M.

92% of total receipts on secondary income is comprised of remittances of individuals from foreign countries, 7% - value of humanitarian goods, 1% - other receipts. Remittances from foreign countries increased by 10.7% to \$803.3 M, while remittances to foreign countries increased by 5.3% to \$261.5 M, resulting in \$ 541.8 M worth of positive surplus on remittances

In total, surplus of secondary income operations made up positive \$550.6 M.

Financial account²

Net acquisition of financial assets increased by \$3344.8 M: direct investments abroad (\$1562.1 M), portfolio investments (\$622.7 M), derivatives (\$-3.2 M) and other investments (\$1163.2 M).

Net financial liabilities made up \$881.2 M: FDIs (\$533.6 M), oil bonus (\$450.1M), portfolio investments (\$-348.8 M), derivatives (\$-4.3 M) and other investments (\$250.6 M).

Net financial assets and liabilities in January – September 2018

Mln.\$

	Assets	Liabilities
Direct investments	1 562.1	533.6
- oil and gas sector	727.9	278.8
- other sectors	834.2	254.8
Oil bonus		450.1
Portfolio investments	622.7	-348.8
Derivatives	-3.2	-4.3
Other investments	1 163.2	250.6
- trade credits and advances	2 356.6	766.5
- credits and loans	106.4	-445.6
- deposits and cash currency	-1 299.8	-70.3
TOTAL	3 344.8	881.2

² Under the IMF's Balance of Payments Manual (6th Edition), the capital and financial account in the BOP structure is classified under the Assets/Liabilities principle, due to which table indicators are designed accordingly

Direct investments

The oil-gas sector accounts for 81% of \$2.9 B worth of FDIs.

In January – September, 2018 rise in net financial liabilities (\$278.8 M) on the oil-gas sector of the BoP's direct investments item stems from the difference between attracted investments (\$2382.3 M) and capital repatriation (\$2103.5 M).

Total amount of FDIs to the non-oil sector is estimated to equal \$551.7 M.

Box 1. The size, and structure of investments attracted to the Azerbaijani oil-and-gas sector, distribution of shares among investors with their further repatriation in the form of income and capital are being managed under international oil-and-gas contracts and recommendations of the IMF.

Repatriation of income under signed contracts is defined as the income a foreign investor earns from his/her investment. To note, under these contracts investors of relevant consortiums take back all of their investments to the Azerbaijani economy over the reported period in the form of extracted and exported crude oil (capital repatriation). In fact, this operation is the decrease in country's foreign liabilities in the financial account of the BoP ("-" net incurrence of liabilities).

Credits and other investments

Net financial assets on credits and loans increased by \$106.4 M, while net financial liabilities decreased by \$445.6 M. Net financial assets on credits and loans mainly increased at the expense of government guaranteed loans, and decreased at the expense of oil-gas sector loans, direct government loans, loans of firms and other enterprises and bank loans.

Net financial assets on deposits and cash decreased \$1.3 B, while net financial liabilities \$70.3 M.

Reserve assets

Over the reported period country's reserve assets increased by \$3.7 B.

Box 2. The Reserve Assets item stands for increase/decrease in country's foreign exchange reserves resulting from operations in current operations and financial accounts. In practice, in the event of current account deficit/surplus, the deficit/surplus should be financed/covered at the expense of the surplus/deficit of the capital and financial account. However, if the current deficit/surplus is not fully financed/covered at the expense of the surplus/deficit of the capital and financial account, then this gap may be financed/covered at the expense of reserve assets (foreign exchange reserves).

If total BoP deficit is not financed by reserve assets (or by contrast, the surplus is not reflected in the rise of reserve assets), the resulting gap is reflected as surplus in the 'Net errors and omissions'.
